## Support Bulletin # 92

### Sending Files with YouSendIt

Using YouSendIt to Send Files

YouSendIt allows you to send large files which are too large to be sent via email through a secure cloud transfer. You don't need to pay for an account, but will need to register to send large files (you will be prompted automatically if this is required).

- Go to [www.yousendit.com](http://www.yousendit.com)
- Enter destination email in "To" field and fill Subject and Message lines if desired.
- Click the 'Select File' box and browse to the file you wish to send
- Click 'Send It'
- If you are sending a large file you may be prompted to register with an account. Fill out the form for this and confirm the account's creation via the link in the auto-generated registration email.

After registration, you will need to click Send again to send the file.
